

# TESTING SERVICE

for safe flying

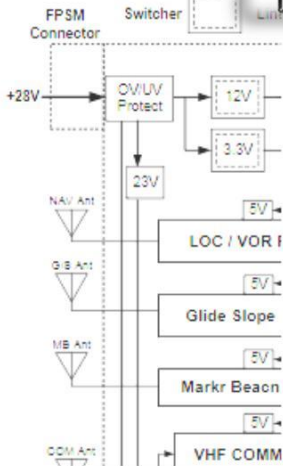

In line with continuing airworthiness requirements we perform mandatory periodic

**yearly and biennial**

**aviation instrument testing**

for all categories **VFR** and **IFR** aircraft up to MTOW 5700kg

from magnetic compass,  
a pitot-static system,  
radiostation through  
transponders to  
radionavigation

(ASI, VSI, ALT, XPDR, ELT, ADF, VOR,  
DME, ILS, MKR, ...GNSS will be mandatory from 2020!)

## Let's fly to Žilina:

Spa in Rajecké Teplice, tourism and monuments in Malá Fatra. We will take care about your aircraft and when you come back, everything will be ready.

## We will come to you:

We will come to you with our service vehicle. All necessary inspection at your place.

We also offer:

## 500hrs and overhauls of aircraft magneto

- Bendix King series S20/S200
- Slick series 4300/6300

**Possible free transportation and discount up to 25%**
